
HP1200 Print Area

Problem:

A portion of the form language is cut off on either the right margin or the bottom margin

Comments:

The HP Laserjet 1200 driver has minimum margins of

	Letter	Legal
top	.17 ”	.17 “
left	.17 ”	.17 “
right	.33 ”	.33 “
bottom	.17 ”	.58 “

Some of the Blue Moon form pages must print to .25 “ on all margins and the driver limitations will cause the portion of the page outside the printer driver’s minimum margins to cut off.

Solution:

Install the HP Laserjet III driver and set as default windows driver.
